

**SEVEN BRIDGES COURTS ASSOCIATION
APPLICATION FOR ARCHITECTURAL CONTROLS FOR INSTALLATION OF A SATELLITE DISH**

It is the responsibility of the Seven Bridges Courts Board of Directors to preserve the aesthetic quality of our community while maintaining the structural integrity of our homes. For this reason, it is strongly suggested that our residents choose underground cable for television programming. However, FCC statutes dictate that an Association cannot unreasonably interfere with a resident's access to programming or unreasonably increase the cost of installation of a satellite dish. It is in the best interest of the community that the dish be installed only as described on the Satellite Dish Use and Installation Agreement. The roofs of the Dwelling Units shall not be subjected to any damage, intentional or unintentional, that has the potential to affect other units in the same building.

Please use this form to inform the Association of your satellite dish installation. Attach this form to your signed Satellite Dish Use and Installation Agreement and return both forms to the SBCA Board. The signed agreement must be on file with the Association.

TO: SBCA Board of Directors, Seven Bridges Courts Association
27 Mashie Court, Woodridge, IL 60517
